Really fun to play alone or with friends and the workshop just spices things up. Awesome game. The best ww2 strategy game I have played.. By far... There's no words to describe the Joy I have attained from the endless amounts of hours poured into this amazing game, Immersive, fun and overall Just a well made Simulator, With the addition of Editor AND Mods ranging from Call of Duty to Star Wars it makes a highly enjoyable Game. With the Editor it is very satisfying to see the Work you have put in Unfold in front of you with small skirmishes and battles, this game is well worth every last penny!. Pretty bad turns into a shootout way to quick. Tanks make it fun for a while but then it just quickly turns to a slog.
. The controls are absolutely horrible. No unit ever does what you want them to do. Combat itself looks interesting but I can't be bothered with these absolute horrible controls. i downloaded a mod and a virus was downloaded nearby after and wont let me play any more
